

## **SOUTHERN FLINDERS WOODWORKERS**

Our woodworking group officially started at the John Pirie High School in July, 1992. Membership numbers have fluctuated over the years with a core group of about twelve.

The interests range from furniture restoration, wood carving, new projects, recycling of old timber, wood turning and furniture polishing. None of the group is expert in any of the above. We have lots of fun in sharing and pooling our expertise?

In the past we have had a master-craftsman come to our group from Adelaide on occasions when we can afford his expertise. This has been invaluable especially for those doing furniture restoration, finishing and carving. Now as members of Woodgroup SA we have access to a much wider expertise base.

Two years ago our future was looking bleak due to liability insurance, but a chance meeting at the woodwork show in Adelaide with Ron Allen opened the door to our continuing as a group. And for this we are grateful, as it has enabled us to continue and be part of Woodgroup SA.

We take this opportunity to wish Woodgroup SA and all its members a happy 20th Anniversary.
